

MATERIAL

solid walnut, natural steel (shown)

DIMENSIONS

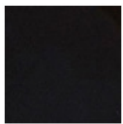

high - 14-3/4"W x 31"H

PRICE RANGE

\$349 and up

The Tractor Stool was inspired by classic tractor seats which were built for comfort over long periods of sitting. Each wood stool seat is carved by our CNC Router to create the basic shape. The piece is then shaped by hand to create the subtle curves of the final seat. This piece is made to order, which means it's available in a variety of finishes. Please don't hesitate to call our design studio to learn more about finish options 415-647-6446.
