

ADLER DESKS

Taking its cue from machinist tables built at the turn of the century, this piece is as beautiful as it is functional. The simple wood and steel combination makes this piece versatile in style and use. The design can fit into a modern or rustic environment and works equally as well in a large office as it does as a home desk or table. This table is available in 2 standard sizes. Each desk is made to order in our San Francisco workshop. Custom sizes are also available upon request.
