Often imitated, the Blocky was first made in 1998 after our trip to Marfa to see Donald Judd's work. Sculptural pieces in solid wood shaped and finished silky smooth, Blocky stools make handsome nightstands, small end tables, extra seating or simply a way to bring nature in to your modern environment. Please don't hesitate to call our design studio to learn more about finish and size options at 415-647-6446.
